

COMPLETION SERVICES

Flex-Chem separates itself by consistently having excellent equipment, highly trained and experienced personnel, high safety culture and technological advancement.

Pressure Pumping

- Toe Prep
- Pressure & Injection Testing
- Wireline Pumpdown
- Acidizing
- Vertical Frac
- Data Acquisition & Reporting
- Direct Chemical Injection/Ballout Equipment

On-The-Fly Water Treatment

- 6 Chemical Pumps
- 6 Electromagnetic Flowmeters
- 2 Generators & 2 Engines (100% Backup)
- Multiple Chemical Options
- Chemical Mixing In Line with Static Mixer
- Real-time Data Acquisition
- On-site Lab Monitoring

Polymer Damage Prevention

Time release polymer damage preventative additive for slickwater frac designed to guard against permeability loss in proppant packs caused by interactions between fluid additives and reservoir formations.

Without PermGuard

With PermGuard

Frac Water Recycling

- Mobile Aeration Unit – Rapid Deployment
- Flow/Mixing Rate – 65,000 BWPD
- Small Footprint - <500 ft²
- ESG Friendly – Fully Electric
- Economical – Generally \$0.05-\$0.10 per Bbl cheaper than other methods
- Store water for several months without spoilage
